

User Stories

MasterShop E-Commerce Lab — Version 1.48

Authentication

US-01: User Registration

As a	new visitor
I want to	create a new account using my email and password
So that	I can access the platform as a registered user and place orders

Acceptance Criteria

ID	Criteria
AC-01	Required Fields - The system must require a valid email address and a password to register. - The system must not allow registration if any field is empty. - The system must display a clear error message for missing or invalid fields.
AC-02	Successful Registration - The system must create a new account and redirect the user to the home page. - The system must send a confirmation or welcome email after registration.
AC-03	Duplicate Email - The system must not allow registration with an email that is already in use. - The system must display an error message indicating the email is already taken.

US-02: User Login

As a	registered user
I want to	log in to my account using my email and password
So that	I can access my profile, cart, wishlist, and place orders

Acceptance Criteria

ID	Criteria
----	----------

AC-01	Required Fields - The system must require both email and password fields to log in. - The system must display an error message if any field is empty.
AC-02	Valid Login - The system must allow login with correct credentials. - The system must redirect the user to the home page after a successful login.
AC-03	Invalid Credentials - The system must not allow login with incorrect email or password. - The system must display a clear error message for invalid credentials.

US-03: Google Login

As a	visitor
I want to	log in or register using my Google account
So that	I can access the platform quickly without creating a separate account

Acceptance Criteria

ID	Criteria
AC-01	Google OAuth Flow - The system must redirect the user to Google's login page when the Google login option is selected. - The system must create a new account or log in an existing one based on Google email.
AC-02	Successful Google Login - The system must redirect the user to the home page after a successful Google login. - The user's display name must be populated from the Google account.

US-04: Stay Logged In (Remember Me)

As a	registered user
I want to	choose to stay logged in when I close and reopen the browser
So that	I do not have to log in again every time I visit

Acceptance Criteria

ID	Criteria
AC-01	Remember Me Option - The system must provide a 'Remember Me' option on the login page. - The session must remain active for 14 days when the option is selected.
AC-02	Session Expiry The session must expire after 14 days and prompt the user to log in again.

User Account Management

US-05: Update Profile

As a	registered user
I want to	update my display name and shipping address
So that	my account information is always up to date

Acceptance Criteria

ID	Criteria
AC-01	Edit Display Name - The system must allow the user to change their display name. - The new name must be saved and reflected immediately across the platform.
AC-02	Edit Shipping Address - The system must allow the user to add or update their shipping address. - The updated address must be used automatically at checkout.

US-06: Change Password

As a	registered user
I want to	change my password from my account settings
So that	I can keep my account secure

Acceptance Criteria

ID	Criteria
AC-01	Current Password Verification - The system must require the user to enter their current password before setting a new one. - The system must reject the request if the current password is incorrect.
AC-02	New Password - The system must accept the new password if it meets the required criteria. - The system must send a confirmation email after the password is successfully changed.

US-07: Forgot / Reset Password

As a	registered user
I want to	reset my password if I forget it
So that	I can regain access to my account

Acceptance Criteria

ID	Criteria
AC-01	Password Reset Request - The system must provide a 'Forgot Password' option on the login page. - The system must send a password reset email to the registered email address.
AC-02	Reset Link - The reset link must be valid for 30 minutes and expire after use. - The system must allow the user to set a new password after clicking the link.

US-08: Two-Factor Authentication (2FA)

As a	registered user
I want to	enable or disable two-factor authentication on my account
So that	I can add an extra layer of security to my login

Acceptance Criteria

ID	Criteria
AC-01	Enable 2FA - The system must allow the user to enable 2FA from their account settings. - The system must send a verification code to the user's email when 2FA is active.
AC-02	Login with 2FA - The system must prompt the user to enter the verification code after entering their password. - The system must deny login if the code is incorrect or expired.
AC-03	Disable 2FA The system must allow the user to disable 2FA from their account settings.

US-09: Store Balance & Redemption

As a	registered user
I want to	view my store balance and see my redemption history
So that	I can keep track of my credits and past transactions

Acceptance Criteria

ID	Criteria
----	----------

AC-01	Balance Display • The system must display the user's current store balance on their account page.
AC-02	Redemption History • The system must show a history of all redeem and purchase transactions. • Each entry must include the transaction type, amount, and date.

Product Browsing & Discovery

US-10: Browse by Category

As a	user
I want to	filter products by selecting a category from the sidebar
So that	I can quickly find products I am interested in

Acceptance Criteria

ID	Criteria
AC-01	Category Filter - The system must display all available categories (Electronics, Clothing, Home & Garden, Books, Sports, Ramadan). - Selecting a category must update the product listing to show only products in that category. - Selecting 'All Categories' must display all available products.

US-11: Search for Products

As a	user
I want to	search for a product by name using the search bar
So that	I can find specific products quickly

Acceptance Criteria

ID	Criteria
AC-01	Search Results - The system must return products that match the entered keyword. - The system must display the number of results found. - If no products match, the system must display an appropriate message.

US-12: Filter by Price Range

As a	user
I want to	use the price range slider to filter products within a specific price range
So that	I can find products that fit my budget

Acceptance Criteria

ID	Criteria
----	----------

AC-01	Price Slider - The system must allow the user to set a minimum and maximum price using the slider. - The product listing must update to show only products within the selected price range. - The minimum value must not exceed the maximum value.
--------------	---

US-13: Filter by Rating

As a	user
I want to	filter products by a minimum star rating
So that	I can find well-reviewed products

Acceptance Criteria

ID	Criteria
AC-01	Rating Filter - The system must allow the user to set a minimum star rating. - The product listing must update to show only products that meet or exceed the selected rating.

US-14: Sort Products

As a	user
I want to	sort the product listing using the Sort by dropdown
So that	I can view products in the order that is most relevant to me

Acceptance Criteria

ID	Criteria
AC-01	Sort Options - The system must provide sorting options such as price (low to high, high to low) and rating. - The product listing must reorder immediately when a sort option is selected.

Cart & Wishlist

US-15: Add to Cart

As a	user
I want to	add a product to my cart by clicking the (+) button
So that	I can purchase it later

Acceptance Criteria

ID	Criteria
AC-01	Add Item - The system must add the selected product to the user's cart. - The cart icon in the navigation bar must update to reflect the new item count.
AC-02	Cart Persistence - The cart must be saved across sessions for logged-in users. - The cart must be retained if the user leaves and returns to the site.

US-16: Manage Cart

As a	registered user
I want to	view, update quantities, and remove items from my cart
So that	I can control what I am purchasing before checkout

Acceptance Criteria

ID	Criteria
AC-01	View Cart The system must display all items in the cart with their name, price, and quantity.
AC-02	Update & Remove - The system must allow the user to increase or decrease item quantities. - The system must allow the user to remove an item from the cart. - The total price must update automatically after any change.

US-17: Wishlist

As a	user
I want to	add or remove products from my wishlist using the heart icon

So that

I can save products I like and revisit them later

Acceptance Criteria

ID	Criteria
AC-01	Toggle Wishlist - Clicking the heart icon must add the product to the wishlist if not already added. - Clicking again must remove it from the wishlist. - The heart icon must visually indicate whether the product is in the wishlist.
AC-02	Wishlist Persistence The wishlist must be saved across sessions for logged-in users.

Checkout & Payment

US-18: Place an Order

As a	registered user
I want to	complete the checkout process and place my order
So that	I can purchase the products in my cart

Acceptance Criteria

ID	Criteria
AC-01	Checkout Flow - The system must guide the user through the checkout steps: review cart, confirm address, and payment. - The system must display an accurate order summary before the user confirms the purchase.
AC-02	Order Confirmation - The system must display an order confirmation page after a successful purchase. - The system must send an invoice email to the user after the order is placed. - The order must record the product name and price at the time of purchase.

US-19: Apply Coupon or Discount

As a	registered user
I want to	apply a coupon code or discount at checkout
So that	I can get a reduced price on my order

Acceptance Criteria

ID	Criteria
AC-01	Valid Coupon - The system must accept a valid coupon code and apply the correct discount to the order total. - The updated total must be displayed before the user confirms the purchase.
AC-02	Invalid Coupon The system must display an error message if the coupon code is invalid, expired, or already used.

US-20: Redeem a Gift Card

As a	registered user
I want to	use a gift card as a payment method at checkout
So that	I can use my gift card balance to pay for my order

Acceptance Criteria

ID	Criteria
AC-01	Gift Card Redemption - The system must accept a valid gift card and deduct its value from the order total. - If the gift card covers the full amount, no additional payment should be required. - If the gift card is invalid or has no remaining balance, the system must display an error.

US-21: Payment

As a	registered user
I want to	complete my payment through the available payment method
So that	my order is confirmed and processed

Acceptance Criteria

ID	Criteria
AC-01	Successful Payment The system must process the payment and confirm the order upon success.
AC-02	Failed Payment - The system must display an appropriate error message if the payment fails. - The user must be given the option to try again.

Admin Panel

US-22: Manage Products

As a	admin
I want to	add, edit, and delete products from the store
So that	the product catalog is always accurate and up to date

Acceptance Criteria

ID	Criteria
AC-01	Add Product - The system must allow the admin to add a new product with a name, description, price, category, and image. - The new product must appear in the store immediately after being added.
AC-02	Edit Product - The system must allow the admin to update any product details. - Changes must be reflected in the store immediately.
AC-03	Delete Product - The system must allow the admin to soft-delete a product (hides it from the store without permanently removing it). - A soft-deleted product must not appear in the storefront.

US-23: Manage Users & Roles

As a	admin
I want to	view and manage user accounts and their roles
So that	I can control access levels across the platform

Acceptance Criteria

ID	Criteria
AC-01	View Users The system must allow the admin to view a list of all registered users.
AC-02	Change User Role - The system must allow the admin to promote a user to admin or demote an admin to a regular user. - An admin must not be able to remove their own admin role.

US-24: Manage Coupons

As a	admin
------	-------

I want to	add, edit, and activate coupons from the admin dashboard
So that	I can create and control promotional offers for customers

Acceptance Criteria

ID	Criteria
AC-01	Add & Edit Coupon - The system must allow the admin to create a new coupon with a code, discount value, and expiry date. - The system must allow the admin to edit existing coupon details.
AC-02	Activate / Deactivate Coupon - The system must allow the admin to activate or deactivate a coupon. - Deactivated coupons must not be accepted at checkout.

US-25: Manage Orders

As a	admin
I want to	view and manage customer orders
So that	I can track and fulfill purchases made on the platform

Acceptance Criteria

ID	Criteria
AC-01	View Orders The system must display a list of all customer orders with their status, items, and total.
AC-02	Update Order Status The system must allow the admin to update the status of an order (e.g., pending, processing, delivered).

US-26: Access Control (Admin Only)

As a	regular user
I want to	be blocked from accessing admin pages
So that	admin functionality is protected and only accessible to authorized users

Acceptance Criteria

ID	Criteria
AC-01	Unauthorized Access • The system must deny access to any admin page if the user does not have an admin role. • The system must redirect the user or display an 'Access Denied' message.
